How does "Live Online" work?

- The seminar begins with an introductory module in which you get to know the VClassroomXL and your tools.

- You will get your questions answered immediately in class or in the exercises LIVE ONLINE via ZOOM from a lecturer.

- Your documents are stored on campus and you are independent of location, because you have access to your digital documents from anywhere. You will also receive paper documents.

- You can use the online whiteboard alone or with your college friends for online collaboration and online project work.

- You can use the virtual workshop rooms for teamwork on your project.

- Modular structure and live online training with contact to other course participants in order to find your way in the UX world.

Usability Academy

Shaping the digital future

We advise and train all kind of people who are part of digital transformation projects or are affected by it and want to expand their knowledge and competencies and thus enable the participation in the working life of the first labor market.
